

One thing
leads
to another –

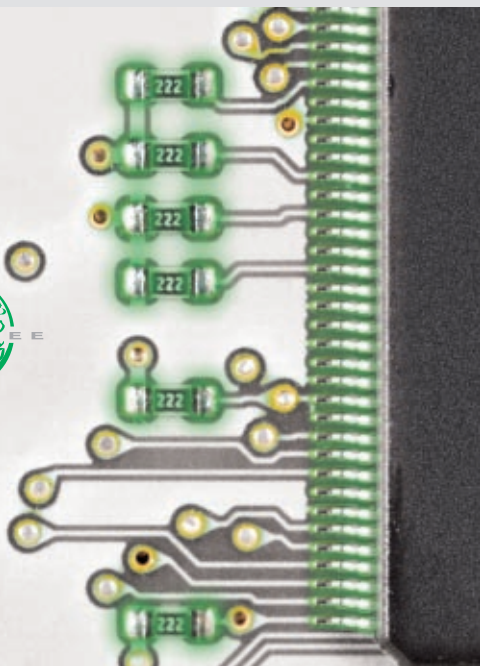

lead-free!

The new Lotpaste F 640

leads to
lead-free!

A careful selection of lead-free solder pastes is essential for accurate processing and assembly. Using the new F 640 solder paste you make a reliable decision.

Key benefits:

- Short process cycles (squeegee speed up to 200mm/sec., separation speed up to max.)
- Constant process conditions (T up to 32°C)
- Longer cleaning cycle (after 8 prints at 0.4 mm pitch)
- High Surface Insulation Resistance (>1.0E10 at 85/85 and 50V)
- Stable up to 7 days at 30°C
- High batch to batch and packaging consistency
- Made in Germany
