SRS 500

Solder Recovery System

Cost-effective solutions for electronic industry

System Features

- Significantly reduces your Soldering Costs.
- Can be used for both Lead and Lead Free Solder.
- Useful for Dross from 1 Kg to 5 Kgs.
- Totally Automatic Process.
- Can be used if you have multiple Wave Soldering Machines.
- No Need of Dross-Reducing powders or wave oil in your process.
- Increases the effectiveness of wave soldering machine by reducing shorts.
- Cycle time only 50-70 Minutes.
- Can be used for Hot Dross as well as Cold Dross.
- Can recover 60-85% solder from dross, which reduces consumption of Solder.
- Reduces De-drossing time by 75%.
- Patented Technology.

Specifications	SRS 500
Capacity	1 Kg to 5 Kg
Power	230v, 50-60 Hz, 2kw
Dimension	530 x 510 x 375 mm
Exhaust	100 mm / 4" dia

Options

- Lead Free Solder.
- Trolley.
- Fume Filter.
